High School (Scientific Branch) _ Syria - Homs

2006

Al Baath University, Commerce E-Marketing - Syria - Homs

2008 - - - - -

About Me

After I lost years because of the war in Syria and a long medical treatment journey in Turkey, I'm trying to get back by learning web development and related skills, as I've been interested in dealing with computers since childhood (the 90s).

Next Step

Focusing on Front-End path using Bootstrap - ReactJs.
